Discuss Paid Stipend for Cell Phones

City Administrator addressed that council about cell phone improvements. Currently the City pays for 3 phones carried by the Public Works Department. The phones are out of date. The average monthly bill is \$100.

Employees tend to carry 2 phones. One is their personal phone and the other is work issued phone. The work issued phone doesn't have texting or email capabilities. They are just a basic flip phone.

Council agreed that allowing the employees to get upgraded and receive a stipend makes everything easier. They agree \$40 a month is a good amount to start with.
