This is due to be over the flow amounts due to I&I. Long Lake has worked on I&I for 30 years and it is estimated that 70% of the I&I is from private lines.

The first year of the 4 year plan is to establish a point of sale ordinance, clean and televise district 1, install meters to monitor flows and make sure Metcouncil is correct. The following 3 years will include manhole repair and infrastructure repair with the turnback and the problem districts.

Metcouncil expects Long Lake to spend \$215,800 over the 4 years to improve the I&I.
